**PRAYER SONGS**

**English**

**1.**

There shall be showers of blessing  
This is the promise of love  
There Shall be seasons refreshing  
Sent from the Saviour above  
    Showers of blessing  
    Showers of blessing we need  
    Mercy-drops round us are falling  
    But for the showers we plead  
There shall be showers of blessing  
Precious reviving again  
Over the hills and the valleys  
Sound of abundance of rain

**2.**

He is my everything  
He is my all  
He is my everything  
Both great and small  
    He gave his life for me  
    Made everything new  
    He is my everything  
    Now how about you  
Like honey in the rock  
Sweet honey in the rock  
For He tastes like  
Honey in the rock.  
    Oh taste and see  
    That the Lord is good  
    For the tastes like  
    Honey in the rock. (He is my everything.....)

3.

Light of the world you stepped down into drakness  
 Opened my eyes, let me see  
 Beauty that made this heart adore you  
 Hope of a life spent with you  
 Here I am to worship  
 Here I am to bow down  
 Here I am to say that you're my God  
 You're altogether lovely  
 Altogether worthy  
 Altogether wonderful to me  
 King of all days, oh so highly exalted  
 Glorious in heaven above  
 Humbly you came to the earth you created  
 All for love's sake became poor  
 I'll never know how much it cost  
 To see my sin upon that cross

Give us the spirit of self surrender and love to spend and to be spent for the little ones, under our care so dear to Thy heart. This we solicit in the name of our Lord and Saviour. Amen

Remaining items include select-response (MCQs) and constructed-response (short- and long-answer) questions. This structure may be reviewed periodically.

The papers incorporate real-life contexts, diagrams, passages, etc. to promote higher-order thinking skills and problem-solving abilities. They are structured into sections (e.g., Section A for objective/ MCQs; B and C for short answers; D for long answers; and E for case studies in certain subjects), with internal choices provided where appropriate to ensure fairness and flexibility.

Sample question papers and marking schemes are released in advance on [cbseacademic.nic.in](http://cbseacademic.nic.in) to support transparency and effective preparation. Overall, the examination design reflects a balanced, skill-oriented approach aligned with competencies.

### **BOARD EXAMINATION FOR (CLASS X) AND ANNUAL EXAMINATION (CLASS IX):**

The Board Examination in each subject will cover entire syllabus of Class X. Grades corresponding to the marks shall be on the basis of 9-point grading system. Grades will be awarded in each scholastic subject.

For awarding the grades, the Board will put all the passed students in a rank order and will award the grades as follows:

Class X (External Board)

Grade	Octile
A-1	Top 1/8th of the passed candidates
A-2	Next 1/8th of the passed candidates
B-1	Next 1/8th of the passed candidates
B-2	Next 1/8th of the passed candidates
C-1	Next 1/8th of the passed candidates
C-2	Next 1/8th of the passed candidates
D-1	Next 1/8th of the passed candidates
D-2	Next 1/8th of the passed candidates
E*	Essential Repeat

**For Class IX:**

The assessment scheme will be similar to the class X Board examination. However, the grading in class IX will be as follows:

**CLASS IX (SCHOOL-BASED)**

Grading Scale for Scholastic Areas (Class IX) (School will award grades as per the following grading scale)	
MARKS RANGE	GRADE
91-100	A1
81-90	A2
71-80	B1
61-70	B2
51-60	C1
41-50	C2
33-40	D

Absolute grading in class IX is used keeping in view the number of students appearing from any particular school as against positional grading used for class X.

### **INTERNAL ASSESSMENT:**

The year-end examination shall be supplemented by a robust system of Internal Assessment (IA) designed in alignment with the Learning Standards articulated in NCFSE 2023. Internal Assessment shall assess students in diverse ways, at different points of time, and across a broad range of curricular objectives, with explicit focus on the development of Competencies rather than rote memorisation. It shall provide multiple opportunities for learners to demonstrate attainment of identified Competencies, and the best performance of the student across the prescribed Internal Assessment components shall be considered while awarding the final Internal Assessment credit, in accordance with the specified weightage norms.

#### **Internal Assessment serves a dual purpose :**

- a) To provide a comprehensive picture of learners' progress towards Curricular Aims, Goals, and Competencies; and
- b) To inform classroom instruction, enabling timely remediation, enrichment, and differentiated support.

Assessment shall be conducted as, for, and of learning, and shall promote reflection, self-regulation, and continuous improvement. All Internal Assessment tools shall explicitly map to identified Competencies and Learning Outcomes.

#### **3.3.1 Periodic Assessment (25 percent of overall weightage for Internal Assessment)**

Periodic Assessment shall assess learning progress at regular intervals and provide structured feedback to both teachers and learners. Three periodic assessments shall be conducted in each subject during the academic year, of which the average of the best two shall be considered for final

submission. However, unlike traditional examination patterns, at least one periodic assessment shall be competency-based and application-oriented, including case analysis, data interpretation, problem-solving tasks, open-ended questions, or interdisciplinary contexts. Periodic assessments shall:

- a) Evaluate conceptual understanding, application, reasoning, and analytical abilities.
- b) Include higher-order thinking skills consistent with Stage-appropriate Competencies
- c) Be followed by structured feedback and documented remedial measures where required.

### **3.3.2 Multiple Assessment (25 percent of overall weightage for Internal Assessment) :**

Multiple Assessment shall provide opportunities to evaluate diverse aspects of learning through varied modes such as observation, oral presentations, discussions, quizzes, experiments, projects, fieldwork, collaborative tasks, concept mapping, and reflective exercises. Teachers shall ensure that:

- Assessment tasks are mapped to clearly defined Competencies.
- Simple, transparent rubrics are developed and shared with students in advance.
- Students are provided opportunities for self and peer assessment to strengthen metacognitive capacities.
- Recording procedures remain manageable and meaningful.

Multiple Assessment shall promote inclusive practices by allowing varied modes of expression in accordance with Universal Design for Learning (UDL) principles.

**3.3.3 Portfolio (25 percent of overall weightage for Internal Assessment) :**

The Portfolio shall form an integral component of Internal Assessment and align with the philosophy of the Holistic Progress Card (HPC) envisioned in NCFSE 2023.

A portfolio shall be a curated collection of student work demonstrating progress towards identified Competencies over time. It may include written work, projects, reflections, art-integrated tasks, experimental records, presentations, and evidence of interdisciplinary learning. The portfolio shall:

- i. Encourage student reflection on strengths, areas for improvement, and strategies for growth.
- ii. Document both process and product of learning.
- iii. Contain a limited number of thoughtfully selected artefacts to avoid undue burden.
- iv. Be assessed using clearly defined rubrics shared in advance.

The emphasis shall be on quality of engagement and growth rather than volume of compilation.

**3.3.4 Subject Enrichment Activities**

**(25 percent of overall weightage for Internal Assessment):**

Subject Enrichment Activities shall aim to deepen conceptual understanding and strengthen discipline-specific skills through inquiry, exploration, and application.

In Languages, activities shall focus on listening, speaking, argumentation, analytical writing, and communicative competence.

In Science and Mathematics, activities shall promote investigation, hypothesis formulation, experimentation, modelling, and data analysis.

In Social Science, enrichment shall include civic inquiry, case

studies, ethical reasoning, and project-based exploration of socio-economic and environmental issues.

Such activities shall move beyond confirmatory tasks and promote inquiry-driven and experiential learning consistent with NCFSE principles.

**Assessment Structure For IX & X -Total 100 Marks**

External(80/70)+internal(20/30) assessment.
